Subject: Extension to Exploration Project, Inland Exploration U.S. Ltd., Keg Project, E/023/106, Juab County, Utah

Dear Mr. Steeds:

On November 17, 2010, the Division received your request to extend the Keg Project exploration project by one year (through November 2011) because of poor market conditions. No exploration was done in 2010. The Division approves the request.

Please notify the Division if there is any information in your Notice of Intention that you would like to be considered confidential. Only information related to the location, size, or nature of the mineral deposit; cultural resources; or proprietary information may be kept confidential, but it needs to be marked as such. If anything in the Notice of Intention is not marked confidential, the Division will consider it public information beginning January 1, 2010.

The November 17, 2010, submittal contains a copy of your minerals exploration progress report. You will need to submit an additional form for 2011 activities by December 31, 2011. A copy of this form is available on the Division's web site at [https://fs.ogm.utah.gov/pub/mines/minerals\\_related/forms/MR-EPR.pdf](https://fs.ogm.utah.gov/pub/mines/minerals_related/forms/MR-EPR.pdf).

Thank you for your cooperation. If you have questions about this letter, please contact me at 801-538-5261 or the Project Lead, Wayne Western at 801-538-5263.

Sincerely,

Paul B. Baker

Minerals Program Manager
